ASTLEY'S PET HORSE BILLY.

Billy's Tricks and History---A Horse That Lived 42 Years.

But Philip Astley's greatest success was with the horse he first started with, the present of Gen. Elliott. Billy—such was the name the quadruped delighted in—would, it is said, take off his own saddle, wash his feet in a pail of water, take a kettle of boiling water off the fire, carry a complete tea equipage, and perform the part of waiter to the company. Once his master was prevailed upon to lend Billy for a few days to a brother showman, a friend of his, named Saunders. Immediately afterward, this man's effects were seized and sold for debt, and, Astley knowing nothing of this, Billy went with the rest, and all trace was lost of him. About three years afterward, as two of the equestrian actors were walking through an East End thoroughfare, one suddenly exclaimed to the other, pointing to a horse and cart: "I say, Jack, I'm a Dutchman if that ain't our Billy." "Impossible!" answered the other. "I tell you it is; I'll try him." Astley taught his horses by certain signs — one of these was clicking the nails of his forefinger and thumb. The experiment was now tried, and at the sound the horse pricked up his ears and began to caper. His identity was at once established; the two actors embraced their old friend with delight, and he testified his pleasure at the meeting by capering and rubbing his head against them. The owner was found in an adjoining public house, a bargain was struck, and Billy was transferred to the actors. "He's a monstrous good-tempered cretur," said the man, "but he's got such odd antics we always call him the mountebank." Billy was received by his old master with tears of joy, and the next night was taking off his kettle of boiling water and handing round his tea-tray with his old dexterity. The horse lived to the extraordinary age of 42, and survived his master; when he was too old to work he was kept in his stable, and allowed two quatern loaves a day; and upon his death a portion of his skin was used to cover a "big drum."—*Belgravia.*

Imperialism in the United States.

From The N. Y. Herald.

In the United States there was never any real danger to the permanence of the republic until the sycophants and flatterers of Gen. Grant conceived the idea of electing him a third time. If, against all precedents and traditions, he could be eleced thrice, he might be re-elected indefinitely by the aid of military glare and fame, and the American republic seemed for the first time in real danger. But this danger has been dispelled by the potency of an aroused public sentiment. Although France, our ancient and honored ally, is still disturbed by the aspirations of pretenders, we are exposed to no corresponding danger since the colapse of the great hippodrome performance which had been planned for escorting Gen. Grant across the continent from San Francisco.

He Took Them Down.

Hawkeye.

It was a warm afternoon, and young Mr. Cummagen did not go in the house, but sat down in the pleasant porch, as was his custom, after ringing the bell. Her little sister came to the door and looked at him with some curiosity. "Does your sister Mabel know I am here, Nellie?" he asked. "Oh, yes," replied the innocent prattler, "I guess she does; she told me to come out and see how shady it made the front yard when you put your feet up on the porch railing." He took them down and sat on them.

The Prince of Wales is not stupid himself, but he likes to have stupid fellows about him as butts. Lord Aylesford has long served him in such a capacity, and Lord Clonmell is often put into requisition. The latter is grandson of an Irish Chief Justice, who would not resign his office for less than an earldom, which he consequently got. The Prince likes to get up "bear fights" between his butts, and derives a great deal of laughter from them. After all great men have done very silly things for diversion. Cromwell used to delight in putting sticky things on seats.—*N. Y. Sun.*

"Rotation in Office."

The Virginia *Chronicle's* mining reporter was informed yesterday that there was a smash-up in the machinery of the Silver Hill mine on Saturday night, and that the engineer who had been employed for two years past was discharged just before the accident took place. The blame of the affair is laid to the new engineer. The damage is estimated at about $3000.

Chicago has a Bald Men's Society. A requisite for membership is a bare spot on top of the head not less than four square inches in extent. The object of the organization is to discover a cure for baldness. The president has not a hair on his head, and was elected for that reason.

The hope is expressed by the Boston *Globe* that if Weston comes over to this country, he will be accompanied by a man who will hold the combination of the pedestrian's jaw and who will be sworn not to give it away on any account or for any consideration.

TAXATION IN PENNSYLVANIA.

The New-Law—How the Corporations are Cinched.

N. Y. Sun.

The new tax law of Pennsylvania compels railroad and transportation companies, besides their divided tax, to pay a tax on gross receipts, and companies mining coal to pay a special tax on that. Home insurance companies are taxed on their premiums, foreign insurance companies, banks, and all corporate and unincorporate fiscal agencies, on their net earnings, and a fixed tax of four mills on the dollar is levied on all evidences of debt, public or private. Corporations in general are taxed three mills on the dollar on the par value of their stock, if a 6 per cent. dividend is declared, and less or more as the dividends are larger or smaller. A tax of three mills on the dollar on that valuation is levied if no dividends are declared, all profits kept by the company being treated as dividends. The tax on transporation companies is eight-tenths of one per cent. on gross receipts. The specifications under the tax of four mills on the dollar on the evidences of debts, bonds, mortgages and the like, cover every form under which a debt is recorded, and are so drawn as to continue the practice under which public corporations, cities, and towns deduct the local tax from the coupons on their bonds presented for payment by the owners outside of the state. Mortgages given in the purchase of real estate are exempted from all but state taxation.

The C. R. & T. G. N. G. R. R.

The shortest railroad with the largest name in the country is said to be the Castle Rock and Tucker Gulch Narrow Gauge Railroad in Colorado. It is a regularly organized corporation, having a President and General Manager, and is just seven hundred feet long.

KEEP SLOPS OUT OF THE DITCHES.

People living near the ditches should be very careful about throwing filth into the water. The folks all over the meadows have to drink and cook with the water in the canals, and, although it purifies itself very fast in running through its gravelly bed, yet none of us would like to have the source of our own supply contaminated, and we should be equally thoughtful of others. Water from the mill ditch will soon be used for wetting wheat to be ground, and unless greater pains are taken by people living over the ditch, the flour must prove unhealthy. It would be no small matter for the people of Reno to have to eat uric acid in their bread. It is one of the most subtle and stubborn poisons known, and creates more diseases in cities than any other one cause.

EDITORIAL NOTES

The Anaheim *Gazette* of Saturday contains the following: While a couple of young ladies were exploring a eucalyptus grove near Anaheim the other day, the strong odor of the trees affected them in a very peculiar way. They became giddy, and for a time had no control over themselves, the odor, in fact, acting upon them much the same as if they had consumed a quanty of strong liquor.

As the eucalyptus tree does not grow in groves in Nevada, its peculiar intoxicating effect has never been remarked on this side of the Sierra. But at Donner Lake on the Fourth, a party of newspaper men, among whom were Dan O'Connell, D. E. McCarthy and Arthur McEwen, were affected in the same way by the peculiar odor of the pine trees.

A telegraphic special announces that five new cases of yellow fever were reported this morning at Memphis. The people are fleeing from the city and a panic prevails. Memphis suffered beyond description from the pestilence last year. Only a few days ago a report was published stating that the health of that city was remarkably good. The news of this fresh outbreak of the terrible scourge in Tennessee will be received with sadness everywhere. The yellow fever is now raging at Port-au-Prince, recently the scene of a destructive fire. New York has sent a commission to Havana to inquire into the origin and treatment of the disease.

One day last week a party of Ogden excursionists went to Salt Lake to bathe. Among them were many of Ogden's fairest ladies. On reaching the lake it was found that the bathing houses had not suits enough for all the party. Time was limited, and the men without suits had either to bathe at once or stay out of the water. It was hot and they were bold and brave. A newsboy on the cars supplied them with copies of the Ogden *Dispatch*, and arrayed in their paper suits, the bold bathers plunged into the briny lake. Fresh sheets were supplied to them when they got ready to leave the water and thus no offense against modesty was committed.

The lawyer of Lovelock's who wrote to a lady that she could marry him or pay her bill of $5.00, "just as she choose," has been married. A blushing maiden of forty-five summers became his blooming bride at Winnemucca recently. This is the sentimental attorney's fifth venture upon the matrimonial sea. He persisted in sitting down during the late ceremony, remarking to the astonished clergyman that such was his custom. Our informant does not state whether the young bride was taken in settlement of an account or whether the consideration of the contract was purely sentimental.

The last number of the *Printers' Circular* is embellished with a fine steel plate engraving of G. Washington Childs, A. M. The New York *Sun* remarks that the previous steel engraving of Mr. Childs, made more than ten years ago, represented him with a perfectly bald head. "Since that time, as we learn from the new picture, nature has blest Mr. Childs with a shiny and luxurious growth of new hair. We record the fact with satisfaction, for a poet without hair is an undignified, unnatural, and anomalous thing, and an object for the gibes of the thoughtless and the wicked."

The Belmont *Courier* thinks that doctors must be plentiful in California. Not long ago it advertised that Belmont needed a doctor, and now it says that over one hundred doctors have written to Belmont from California, to say that they would like to practise in Belmont.

The *Enterprise* is responsible for the following:

"The first sentence of the oration at Reno was: 'The republic lives; you bet.'"

Some one says that in the Virginia oration, the Comstock lode was ten times referred to as "the backbone of the continent.

The Reno *Journal* publishes patent letters, gotten up in Washington, and sent out in exchange for advertising. Come, come, Powning this won't do. It is unbecoming Nevada journalism. —*Carson Tribune*.

Sir Astley Cooper's Vital Restorative:

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimniant nor excitant, is perfectly safe to take, is NOT a quack nostrum, and produces results that are wonderful.

Why will you suffer? Send to A. E. Mintie, M. D., No. 11 Kearney street, San Francisco, for the Restorative, and be cured. Price, $3 per bottle. Four times the quantity, $10. Try a bottle. Dr. Mintie treats all private diseases successfully.

DIED.

OLINGHOUSE.—At Wadsworth, July 10th, 1879, of scarlet fever, Hattie M., daughter of Mr. and Mrs. E. Olinghouse, aged 3 years and eight months.

[Funeral at 9 o'clock to-morrow morning.]

JOTTINGS.

— Stocks still weak to-day.

— The Reno Engine Co., No. 1, did not have a quorum at their last meeting.

—If the anonymous who borrowed Draper's "History of the Intellectual Development of Europe" will return it he will be rewarded with thanks.

—H. H. Blake is already at work on the county vault. The wall is torn away and the whole will be finished inside of two weeks.

— The People's Ice Company at Cuba has planted the bottom of the reservoir in potatoes which look very well. The crops all along the river have improved greatly under the warm weather of the last two weeks. There will be a full potato crop.

PERSONAL.

Bishop Whittaker was in town yesterday.

Robertson and Ayers, of the patent process, are expected in Reno every day.

W. D. Aplin, of the Crown Prince mine came over the ridge from Dutch Flat yesterday.

D. H. Haskell, C. P. town site agent, returned from San Francisco this morning.

A. J. Hatch, surveyor general for Nevada, and E. S. Davis, U. S. surveyor general for this state, have gone East on a tour of inspection. They will go as far as Toano.

Hill & Lussier, well known San Francisco artists, who have been painting for sometime in Virginia City, came down last night, having finished their season's painting in that place.

Get Your Tickets.

All those who intend going to the Denner Lake picnic Saturday are requested to get their tickets to-morrow, as Mr. Higgins wishes to know the night before about how many will attend. The train will leave here at 7:30 in the morning.

The Good Templars' Picnic.

The picnic of the Good Templars, which goes to Bowers' Mansion Saturday, 19th instant, will be one worth joining. The absence of intoxicants will prevent sunstrokes and next-day headaches.

MASON'S VALLEY.

A Promising Agricultural Section in Central Nevada.

But for the sink of the Humboldt the valley in which it lies, known as the Big Meadows, would be almost the exact counterpoint of Mason's valley. The latter lies about 50 miles southeast of Virginia, and is favorably situated to be irrigated by the waters of Walker river, of which there are two branches, which join near the south end of the valley, and run for a considerable distance through it. The river has not half the volume of the Truckee, but it is much less rapid and makes a very fine show. It is stocked with excellent fish, the best of which is a small native trout, which is one of the choicest on the coast. Several important irrigation schemes have been planned and are in partial operation. The price of water is only 50 and 75 cents an acre per year.

TWO CROPS OF ALFALFA

per season can be cut. Wheat and barley grow from 25 to 50 bushels to the acre. The valley is about 22 miles long and 10 wide, and is capable of supporting a dense population. The soil is alluvial mixed with decayed vegetable matter and is very rich. There have been great improvements in the last two years. The population is now about 600 and it is steadily increasing. Quite a furore existed for a time in parts of Nevada, and it looked as though half the people of the state were going to Mason's valley. If the Bodie railroad should ever be built it would revive the interest of outsiders and

POPULATE THE VALLEY

very quickly. Lying on a railroad midway between two such camps as Virginia City and Bodie, its products would find a ready market at good prices. The altitude is about the same as Reno, but the climate is not nearly so good. Instead of the fine forests and snowy ranges which lie west of the Truckee meadows, low ranges of barren brown hills crowd around the valley on every side, and instead of generating cooling breezes, serves as hot plates to raise the temperature of the already heated air.

A Street Scene.

Last evening as a GAZETTE reporter was walking down Virginia street, he saw ahead of him, in the gathering dusk, an Indian and his squaw, walking side by side. The man was ambling at ease with his hands in his pockets, while the woman was staggering beneath the burden of an armful of wood. What a contrast between civilization and barbarism. A white man would have carried the wood while his wife would have walked unburdened beside him. The degree of the subjection of woman marks the civilization of a race. But as the reporter quickened his steps and passed the couple, he discovered to his astonishment that it was a white woman who bore the load, and a white man who walked unincumbered by her side.

Installation of Officers of Truckee Lodge Last Night.

The installation of officers for the ensuing term of Truckee Lodge No. 14, I. O. O. F. last night, by R. F. Hoy, Grand Deputy Master:

The officers elected have been previously mentioned. The N. G. made the following appointments: warden, J. Laws; conductor, Seymour Lake; J. T., —— Updike; R. S., Wm. Moe; L. S., J. Barstow; Wm. Illidge, L. S. S. The V. G. appointed L. S. Burchard R. S. Other appointments were deferred until nexth Wednesday evening. After the installation the N. G. with a party of members performed the usual collation ceremonies at Burchard & McClelland's.

Freaks of the Wind.

Late yesterday afternoon, little whirlwinds gathered in the streets and traveled along picking up all the loose paper and straws in their path. One of these minature whirlwinds went down the front of Commercial Row about 5 o'clock, causing the ladies to take refuge in the stores for a few moments. The wind was not blowing hard at the time, either. The revolving clouds of dust which wound up in spirals from the street, marked the course of the baby cyclones, which afforded, by their movement, a fine illustration of the circular theory of storms.

Undertaking in Carson.

The drowsy air of Carson was yesterday disturbed by the noise of slapping chops. Gus Hebberling, of the mint, was pensively smoking a cigar in Friend's store, when Sam C. Wright came in and pointedly remarked that Hebberling was of direct canine descent on his mother's side, or words to that effect. Undertaker Wright then proceeded to slap the chops of Hebberling, in which proceeding he met with considerable opposition from the latter. Mutual friends interfered and stopped the fun. It is evidently unfair in an undertaker to begin a fight. The odds of possible funeral expenses are entirely on his side.

Fire Insurance.

Now is the time to insure. Hot days and windy weather are favorable to fires. The prudent business man will never be without this means of giving additional security to his business. L. S. Burchard is an agent for the following seven Board Insurance Companies: Home Mutual, of San Francisco; Phœnix, of Brooklyn, N. Y.; Commonwealth, of Boston; Standard, of New Zealand; Lycoming, of Pa.; Faneuil Hall of Boston, and Scottish Commercial of Glasgow. He will promptly attend to all business entrusted to him, and respectfully solicits public patronage. jul10-1m

THE YELLOW FEVER.

Outbreak of Yellow Fever in Memphis—Morgans Denial—The Panic In Tennessee.

The Yellow Fever.

MEMPHIS, July 9.—Frank Mulhrandon, an Irishman aged 47, a shoemaker by trade, was taken sick last Saturday afternoon and died yesterday. A post mortem examination was held by six of the leading physicians of the city, and revealed the fact that the patient had died of yellow fever. All the physicians declared it a sporadic case. Considerable excitement prevails.

Yellow Fever at Memphis.

MEMPHIS, July 10.—Five new cases of yellow fever are reported this morning and one death. The board of health advises citizens to remove their families from the city. A perfect stampede has commenced. People are leaving by thousands. The trains are unable to carry all the refugees, and many are leaving on foot. The roads are crowded with vehicles.

Morgan's Denial.

NEW YORK, July 10.—J. H. Morgan, a son of Senator Morgan, denies the charge of seduction made by Miss Horton, of Alabama.

D. B. BOYD, Treasurer.

STATE OF NEVADA, COUNTY OF WASHOE. } ss

I, Mark Parish, County Clerk and ex-officio Clerk of the Board of County Commissioners, in and for Washoe County, Nevada, do hereby certify that the foregoing is a true and correct copy of the original County Treasurer's Report which now remains on file in my office in Reno, in said County.

In testimony whereof I have hereunto set my hand and affixed my official seal at Reno, this 7th day of July, A. D. 1879.

MARK PARISH, Clerk.

Truckee River Items.

The Boca mill started up on Tuesday. It is in fine running order.

There are forty-six inches of water backed up in Tahoe to draw upon this summer. There has only one gate been open thus far.

All the hotels at the lake are full and the stages crowded. Some of the sunday school excursionists are there and others at Yosemite, etc.

The wife of D. H. Woodbridge, a West-bound emigrant passenger, died at the American Hotel night before last and was buried yesterday. She had inflamation of the bowels and spleen and was sick when she left her home in Kentucky. The family was on the way to Oregon to visit a son, and reached Truckee June 29th.

A GAZETTE reporter talked with Nichols through the new carbon telephone yesterday. The line is 28 miles long and works finely. Mr. Nichols reports everything quiet in the valley. The hoppers have not come within 10 miles of Sierraville yet and it is hoped the head of the valley will not suffer.

A neat stone monument has been set up alongside the track toward the line between Nevada and Sierra counties. It is about two miles above the post which makes the state line. Considerable trouble would have been saved if this had been done before, as several law suits have been in court which were hard to settle because no one knew for certain which county the property in dispute lay in.

The Truckee lumber company's mill and factory are in full operation. The mill has a new gang edger and new patent headblocks which work finely. In the factory an experiment is being made with the live oak which grows plentifully in the foothills of California. It is used instead of brass for bearings, and where the work is not too heavy, gives good satisfaction. The boxes can be hollowed out and filled with babbitt if required. They are very cheap and durable, never heat and require very little oil.

For the accommodation of the public, the bath house of Coleman & Pechner is kept open on Sunday until 4 P. M. m30

Talk is Cheap,

And so are fine clothing, boots, shoes and gentlemen's and boys' fine furnishing goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Every body is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this state. Everything we have is new. No old, musty, and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices, and examine our stock before going into those humbugging, Cheap John shops in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. we make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. Remember the place, the White House, No. 19 Commercial Row.

Orders from the country promptly attended to. ABRAHAMS BROS. & Co., White House, Reno.

Piano Lessons.

Master Bennie Barnett, late pupil from the Conservatory of the eminent composers and teachers, Professors Mansfield & Scott, of San Francisco, will give instructions on the piano. He has been intrusted with the tuition of Professors Mansfield & Scott's own pupils, which is certainly proof of his ability. He also adopts their method of teaching, which is thorough in the minutest details. For terms, etc., inquire at I. Barnett's drygoods store. june14

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada sends to Ardeen Jones greeting: You are hereby required to appear in an action commenced against you as defendant by Jemima Jones as plaintiff in the District court of the Second Judicial District, and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this Summons, (exclusive of the day of service). If served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a decree dissolving the bonds of matrimony heretofore and now existing between plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant intermarried at Mono county, California, on or about July 29th, A. D 1873, and ever since have been and now are husband and wife; that on or about September 9th, A. D. 1875, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have so continued and do now so continue to desert, abandon and live apart from the plaintiff against her will, wish or consent; that for more than a year next preceding the commencement of this action you, the defendant, have failed and neglected and now do fail and neglect to provide for the plaintiff the common necessities of life, which neglect is and was not the result of poverty on your part, which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage and no common property. Plaintiff prays to be restored to her maiden name and for costs, all of which will more fully appear from the complaint which is on file in the office of the clerk of said Court at Reno, in said county. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

SEAL. In testimony whereof I, P. B. Comstock, have hereunto set my hand and affixed the seal of said Court this sixth day of December, A. D. 1878.

Clerk of the District Court of the Second Judicial District, Nevada, in and for Washoe county.

WHY STAY POOR?
Prospecting often Pays; Idleness Never.
The millions of the Comstock were a lucky find. Worthless looking rock is often rich in treasure. At Leadville a simple assay made millionaires of many. Other bonanzas where least suspected await the coming of some unknown man. Who is he?
At Virginia City, Nevada, assays for Gold and Silver are made at $1.00 per sample, by CONRAD WIEGAND, formerly the Supervising Assayer of the U. S. Mint at San Francisco.
The mail will carry ore-samples to his office for one cent per ounce.
Reports which may be relied on absolutely, come back by return mail, or results are telegraphed when ordered so.
All costs, delays and risks in remitting money are avoided by the purchase of our Dollar Remittance Tickets, which pay for all work done in our establishment.
We sell these prepaid tickets at a discount, when $5 worth or more are ordered at one time.
Small sacks for mailing ore samples also for sale at a nominal price.
